

# INTERNATIONAL SEARCH REPORT

Application No  
PCT/GB2005/000769

<b>A. CLASSIFICATION OF SUBJECT MATTER</b> IPC 7 A61K38/10 A61K38/17 A61P31/04				
According to International Patent Classification (IPC) or to both national classification and IPC				
<b>B. FIELDS SEARCHED</b> Minimum documentation searched (classification system followed by classification symbols) IPC 7 A61K A61P				
Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched				
Electronic data base consulted during the international search (name of data base and, where practical, search terms used) EPO-Internal, BIOSIS, EMBASE, FSTA, WPI Data				
<b>C. DOCUMENTS CONSIDERED TO BE RELEVANT</b>				
Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.		
X	WO 03/026479 A (COGNOSCI, INC.) 3 April 2003 (2003-04-03) * See page 2 (lines 21-22), page 11 (lines 7-19), page 16 (lines 1-6), page 23 (lines 17-30), page 25 (lines 9-16), page 40 (lines 1-15), Figure 12A; SEQ 3 = SEQ 6 of the Application * ----- -/--	30		
<input checked="" type="checkbox"/> Further documents are listed in the continuation of box C. <input checked="" type="checkbox"/> Patent family members are listed in annex.				
<b>* Special categories of cited documents :</b> <table border="0"> <tr> <td>           *A* document defining the general state of the art which is not considered to be of particular relevance            *E* earlier document but published on or after the international filing date            *L* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)            *O* document referring to an oral disclosure, use, exhibition or other means            *P* document published prior to the international filing date but later than the priority date claimed         </td> <td>           *T* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention            *X* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone            *Y* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.            *&amp;* document member of the same patent family         </td> </tr> </table>			*A* document defining the general state of the art which is not considered to be of particular relevance *E* earlier document but published on or after the international filing date *L* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified) *O* document referring to an oral disclosure, use, exhibition or other means *P* document published prior to the international filing date but later than the priority date claimed	*T* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention *X* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone *Y* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art. *&* document member of the same patent family
*A* document defining the general state of the art which is not considered to be of particular relevance *E* earlier document but published on or after the international filing date *L* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified) *O* document referring to an oral disclosure, use, exhibition or other means *P* document published prior to the international filing date but later than the priority date claimed	*T* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention *X* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone *Y* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art. *&* document member of the same patent family			
Date of the actual completion of the international search  6 October 2005		Date of mailing of the international search report  18/10/2005		
Name and mailing address of the ISA European Patent Office, P.B. 5818 Patentlaan 2 NL - 2280 HV Rijswijk Tel. (+31-70) 340-2040, Tx. 31 651 epo nl, Fax: (+31-70) 340-3016		Authorized officer  Korsner, S-E		

## INTERNATIONAL SEARCH REPORT

Application No  
PCT/GB2005/000769

C.(Continuation) DOCUMENTS CONSIDERED TO BE RELEVANT		
Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	AZUMA ET AL: "A synthetic peptide of human apoprotein E with antibacterial activity" PEPTIDES, vol. 21, 2000, pages 327-330, XP002348005 cited in the application * See page 328 (Tables 1-2); compare apoE (133-162) with SEQ 4 of the Application *	26, 30
X	----- DYER ET AL: "Structural features of synthetic peptides of apolipoprotein E that bind the LDL receptor" JOURNAL OF LIPID RESEARCH, vol. 36, 1995, pages 80-88, XP002348006 * See page 81 (Table 1 -> (141-150) Dimer = SEQ 68 of the Application) *	26, 30
X	----- WO 00/66145 A (KEIO UNIVERSITY) 9 November 2000 (2000-11-09) * See the peptide bridging pages 22-23 (= SEQ 2) -> comprises SEQ 3 of the Application *	26, 30
